Is your doctor or hospital in your plan's Cigna network? Cigna's online directory makes it easy to find who (or what) you're looking for.

SEARCH YOUR PLAN'S NETWORK IN FOUR SIMPLE STEPS

Step 1

Go to <u>Cigna.com</u>, and click on "Find a Doctor" at the top of the screen. Then, under "How are you Covered?" select "Employer or School."

Step 2

Change the geographic location to the city/state or zip code you want to search. Select the search type and enter a name, specialty or other search term. Click on one of our suggestions or the magnifying glass icon to see your results.

Step 3

Answer any clarifying questions, and then verify where you live (as that will determine the networks available).

Step 4

Optional: Select one of the plans offered by your employer during open enrollment. (OAP) Network Open Access Plus

That's it! You can also refine your search results by distance, years in practice, specialty, languages spoken and more.

Search first. Then choose Cigna.

There are so many things to love about Cigna. Our directory search is just the beginning.

After you enroll, you'll have access to myCigna.com – your one-stop source for managing your health plan, anytime, just about anyplace. On myCigna.com, you can estimate your health care costs, manage and track claims, learn how to live a healthier life and more.

Try nutrition therapy from Virta Health at no cost*

As a virtual clinic for type 2 diabetes reversal and prevention, Virta helps members use food as medicine to lose weight, lower A1C, and reduce medication needs. No calorie counting or gym visits required.

The American Diabetes Association believes that there's no such thing as a diabetes diet² and Virta agrees. With provider support, coaching, and technology, members learn what nutrients (carbs, fats, and proteins) they personally need more of.

And less of, to improve health naturally.

Virta is \$0 for individuals and dependents with an eligible condition.

The Virta Difference

- · Nutrition not calorie restriction. Eat until you feel full.
- Personalized over one-size. Your plan covers your needs & tastes.
- About the journey not the judgement. Get caring providers and coaches.

Specialty Medications Made Simple

Some medicines are more complex.

If you're taking a specialty drug for a condition such as cancer, arthritis, or multiple sclerosis—LucyRx is here to help.

We don't just send your prescription to a pharmacy and hope for the best. We've built a smarter way to support you—with the care, service, and savings you need.

Personalized Support for Your Treatment

No two conditions—or members—are the same. Our Care Guides take the time to understand your situation and match you with the right pharmacy, support, or savings program.

Here's how it works:

LucyRx Care Guides Who Help You One-on-One

1

Our LucyRx Care Guides are trained nurses, pharmacists, and pharmacy techs. They're here to help you:

- · Get your medicine approved
- · Learn how to take it safely
- Understand what to expect during treatment
- Find ways to save money

You can call anytime—or wait for us to reach out. We'll walk you through what comes next.

Specialty Medications Made Simple: Where You'll Get Your Medication

2

Most PBMs ship from large central pharmacies—often far from where care happens. LucyRx does things differently.

We've partnered with more than 100 health systems that operate specialty pharmacies inside their hospitals and clinics—so members can fill prescriptions where they already get care.

This can mean:

- Faster access to your medication
- In-person conversations with your pharmacist
- Better coordination between your care team and your pharmacy
- · Quicker help when something's not working

If a local pharmacy isn't the best fit, we'll guide you to one that is.

Specialty Medications Made Simple: Getting Help with Cost

3

Specialty drugs can be expensive—but LucyRx helps lower what you pay.

When your prescription is submitted, our Care Guides check for savings opportunities. If there's a better option, we'll call you and walk you through it.

We may be able to:

- Lower your copay We can often apply a coupon or discount without changing your pharmacy
- Help you get your medicine for free In some cases, we connect you to trusted programs or pharmacies that cover the full cost
- Offer a safe, lower-cost alternative If another version of your drug works the same but costs less, we'll help you understand your options
- **Provide extra support** For complex conditions, we may connect you with a pharmacist or nurse who checks in regularly and helps manage your treatment

We don't wait for you to ask. If there's a way to save, we'll reach out. And if you ever have questions, just call—we're here to help.

Specialty Medications Made Simple: What Happens Next

- 1. Your doctor sends your prescription to a LucyRx specialty pharmacy (We'll make sure it goes to the best option in our trusted network.)
- 2. A LucyRx Care Guide reaches out to you (No need to call—we'll connect with you directly.)
- **3.** We help you get started with the right pharmacy and support (From benefits to side effects, we've got you covered.)
- 4. You get your medication—and the help that comes with it (Coaching, savings, and guidance are all part of the package.)

Need help at any point? Your LucyRx Care Guide is just a call away.

Support for Specialty Needs

If you're managing a complex condition, where you fill your prescription matters. Your LucyRx Care Guide will help route it to a pharmacy that works closely with your care team—so you get the right medication, with the right support, from day one.

This team of nurses and pharmacists offer personalized support to help you:

Understand your medications and treatment options

Access financial assistance and coverage guidance

Navigate prior authorizations

Stay on track—clinically and financially

So where will you actually get your medicine?

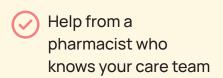

Let's walk through how your specialty prescription is filled—and how we make it as simple and supportive as possible.

Filling a specialty prescription

When you're managing a complex condition, getting your medication from the same place you get your care just makes sense.

That's why many specialty prescriptions can be filled at local pharmacies located inside the hospital or clinic where you're being treated. These pharmacies offer:

A simpler experience with fewer steps

How LucyRx Helps You Save

We know medications can be expensive. That's why we look for ways to help you save—before you even ask.

Our Care Guides are here to help you save in ways you might not expect. If there's a better option for your medication, we'll reach out to walk you through the next step. And it's not just for specialty drugs—we help members save across all types of prescriptions, too.

Here are just a few of the ways we help members lower their costs:

We help you switch to a lower-cost version of your medication—when it makes sense

If there's a safe alternative—like a generic or another option that works the same but costs less—we'll explain your choices and help you make the switch without disrupting your care.

We help with copay discounts

You may qualify for a coupon or manufacturer program that lowers your cost. We'll handle the paperwork and get you enrolled.

We look into pharmacy options even international

For certain medications, we may be able to help you access lower-cost pricing through trusted pharmacies outside the U.S.

We connect you to free medicine programs

If a medication is too expensive—even with insurance—we'll check if you qualify for programs that cover the full cost.

Not sure if you're paying too much? We'll check for savings—and help you make the switch if there's a better option.

We're With You All the Way

Whether it's your first prescription or your fiftieth, LucyRx is here to make prescription care clearer, more affordable, and built around you.

Need a hand? We've got you.

Whether it's cost, access, or something unclear—we'll help you sort it out, every time.
