Which Plan is Right for You?

**BlueCross
BlueShield**

Questions to Consider

- How much coverage do I need?
- How often do I access health care?
- Are my doctors in-network?
- Do I prefer higher premiums or pay as I go?
- Do I have regular prescriptions?

Benefits for UBC Members

The Blue Cross Blue Shield Network provides you with access to healthcare professionals nationwide to address your health concerns. The UBC plans offer a range of coverage options to best meet the needs of you and your family. This provides you a great deal of flexibility and the option to save significantly on your health insurance premiums.

Choice and Control

The Blue Cross Blue Shield Network provides access to approximately 97% of U.S. hospitals and has strong regional and local provider connections.

Welcome to LucyRx

We're glad you're here.

Prescription care should work as it was intended—clear, affordable, and centered around you. That's why LucyRx exists: to help you get the medicine you need, with the clarity and support you deserve.

Whether it's a one-time prescription or something more complex, you're not alone—we're here to help.

Who We Are

LucyRx is your prescription care partner. We're independent, experienced, and built to make getting your medicine easier—from everyday needs to complex care.

We deliver better results through a nationwide pharmacy network, flexible plan designs, and convenient 90-day options—whether through home delivery or retail.

Behind the scenes, our proprietary, AI-powered analytics platform—LucyIQ™—helps your benefit work smarter, supporting the right care at the right cost, every time.

We serve more than 1,200 organizations across the country. But what matters most is you—and helping make your health journey easier, every step of the way.

Getting Started with Your LucyRx Benefit

Here's how to start using your benefit and access support:

- 1 Check your ID card**
Look for the LucyRx logo on the insurance card you received from Allegiance to confirm your prescription coverage. If you're unsure, ask your employer or contact our 24/7 Prescription Care team.
- 2 Show your card at the pharmacy**
When filling a prescription, show your insurance card at the pharmacy so they can process your coverage correctly.
- 3 Register online**
Visit www.lucyrx.com/members to create your digital account and view your plan details.
- 4 Download the app**
Use the LucyRx app (available in the App Store and Google Play) to manage your prescriptions anytime, anywhere.

We're proud to be on your care team.
Let's make this easier—together.

Access Your Care, Anywhere

With LucyRx, managing your prescriptions is just a tap away.
Use our mobile app or online portal to:

Track and refill prescriptions

Get refill reminders and alerts

Compare medication prices

Access your digital ID card

Locate in-network pharmacies

Specialty Medications Made Simple

Some medicines are more complex.

If you're taking a specialty drug for a condition such as cancer, arthritis, or multiple sclerosis—LucyRx is here to help.

We don't just send your prescription to a pharmacy and hope for the best. We've built a smarter way to support you—with the care, service, and savings you need.

Personalized Support for Your Treatment

No two conditions—or members—are the same. Our Care Guides take the time to understand your situation and match you with the right pharmacy, support, or savings program.

Here's how it works:

LucyRx Care Guides Who Help You One-on-One

1

Our LucyRx Care Guides are trained nurses, pharmacists, and pharmacy techs. They're here to help you:

- Get your medicine approved
- Learn how to take it safely
- Understand what to expect during treatment
- Find ways to save money

You can call anytime—or wait for us to reach out.

We'll walk you through what comes next.

Specialty Medications Made Simple: Where You'll Get Your Medication

2

Most PBMs ship from large central pharmacies—often far from where care happens. LucyRx does things differently.

We've partnered with more than 100 health systems that operate specialty pharmacies inside their hospitals and clinics—so members can fill prescriptions where they already get care.

This can mean:

- Faster access to your medication
- In-person conversations with your pharmacist
- Better coordination between your care team and your pharmacy
- Quicker help when something's not working

If a local pharmacy isn't the best fit,
we'll guide you to one that is.

Specialty Medications Made Simple: Getting Help with Cost

3

Specialty drugs can be expensive—but LucyRx helps lower what you pay.

When your prescription is submitted, our Care Guides check for savings opportunities. If there's a better option, we'll call you and walk you through it.

We may be able to:

- **Lower your copay** – We can often apply a coupon or discount without changing your pharmacy
- **Help you get your medicine for free** – In some cases, we connect you to trusted programs or pharmacies that cover the full cost
- **Offer a safe, lower-cost alternative** – If another version of your drug works the same but costs less, we'll help you understand your options
- **Provide extra support** – For complex conditions, we may connect you with a pharmacist or nurse who checks in regularly and helps manage your treatment

**We don't wait for you to ask. If there's a way to save, we'll reach out.
And if you ever have questions, just call—we're here to help.**

Specialty Medications Made Simple: What Happens Next

4

1. **Your doctor sends your prescription to a LucyRx specialty pharmacy**
(We'll make sure it goes to the best option in our trusted network.)
2. **A LucyRx Care Guide reaches out to you**
(No need to call—we'll connect with you directly.)
3. **We help you get started with the right pharmacy and support**
(From benefits to side effects, we've got you covered.)
4. **You get your medication—and the help that comes with it**
(Coaching, savings, and guidance are all part of the package.)

Need help at any point? Your LucyRx
Care Guide is just a call away.

Support for Specialty Needs

If you're managing a complex condition, where you fill your prescription **matters**. Your LucyRx Care Guide will help route it to a pharmacy that works closely with your care team—so you get the right medication, with the right support, from day one.

This team of nurses and pharmacists offer personalized support to help you:

- ✦ Understand your medications and treatment options
- ✦ Access financial assistance and coverage guidance
- ✦ Navigate prior authorizations
- ✦ Stay on track—clinically and financially

So where will you actually get your medicine?

Let's walk through how your specialty prescription is filled—and how we make it as simple and supportive as possible.

Filling a specialty prescription

When you're managing a complex condition, getting your medication from the same place you get your care just makes sense.

That's why many specialty prescriptions can be filled at local pharmacies located inside the hospital or clinic where you're being treated. These pharmacies offer:

- ✓ Faster access to your medication
- ✓ Help from a pharmacist who knows your care team
- ✓ A simpler experience with fewer steps

How LucyRx Helps You Save

We know medications can be expensive. That's why we look for ways to help you save—before you even ask.

Our Care Guides are here to help you save in ways you might not expect. If there's a better option for your medication, we'll reach out to walk you through the next step. And it's not just for specialty drugs—we help members save across all types of prescriptions, too.

Here are just a few of the ways we help members lower their costs:

We help you switch to a lower-cost version of your medication—when it makes sense

If there's a safe alternative—like a generic or another option that works the same but costs less—we'll explain your choices and help you make the switch without disrupting your care.

We help with copay discounts

You may qualify for a coupon or manufacturer program that lowers your cost. We'll handle the paperwork and get you enrolled.

We look into pharmacy options—even international

For certain medications, we may be able to help you access lower-cost pricing through trusted pharmacies outside the U.S.

We connect you to free medicine programs

If a medication is too expensive—even with insurance—we'll check if you qualify for programs that cover the full cost.

Not sure if you're paying too much? We'll check for savings—and help you make the switch if there's a better option.

We're With You All the Way

Whether it's your first prescription or your fiftieth, LucyRx is here to make prescription care clearer, more affordable, and built around you.

Need a hand? We've got you.

Whether it's cost, access, or something unclear—we'll help you sort it out, every time.
