LucyRx

Specialty Medications Made Simple: Where You'll Get Your Medication

2

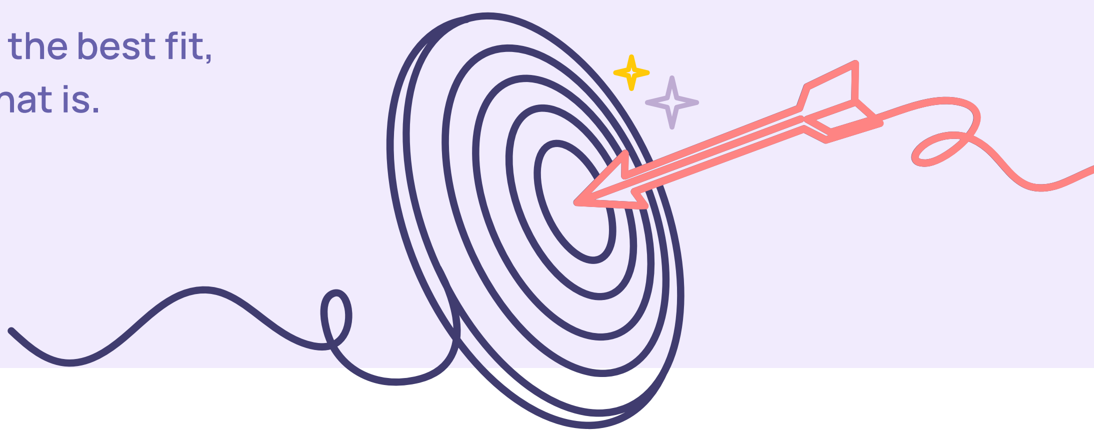
Most PBMs ship from large central pharmacies—often far from where care happens. LucyRx does things differently.

We've partnered with more than 100 health systems that operate specialty pharmacies inside their hospitals and clinics—so members can fill prescriptions where they already get care.

This can mean:

- Faster access to your medication
- In-person conversations with your pharmacist
- Better coordination between your care team and your pharmacy
- Quicker help when something's not working

If a local pharmacy isn't the best fit, we'll guide you to one that is.



Specialty Medications Made Simple: Getting Help with Cost

3

Specialty drugs can be expensive—but LucyRx helps lower what you pay.

When your prescription is submitted, our Care Guides check for savings opportunities. If there's a better option, we'll call you and walk you through it.

We may be able to:

- **Lower your copay** – We can often apply a coupon or discount without changing your pharmacy
- **Help you get your medicine for free** – In some cases, we connect you to trusted programs or pharmacies that cover the full cost
- **Offer a safe, lower-cost alternative** – If another version of your drug works the same but costs less, we'll help you understand your options
- **Provide extra support** – For complex conditions, we may connect you with a pharmacist or nurse who checks in regularly and helps manage your treatment

We don't wait for you to ask. If there's a way to save, we'll reach out. And if you ever have questions, just call—we're here to help.

Specialty Medications Made Simple: What Happens Next

4

1. **Your doctor sends your prescription to a LucyRx specialty pharmacy**
   (We'll make sure it goes to the best option in our trusted network.)

2. **A LucyRx Care Guide reaches out to you**
   (No need to call—we'll connect with you directly.)

3. **We help you get started with the right pharmacy and support**
   (From benefits to side effects, we've got you covered.)

4. **You get your medication—and the help that comes with it**
   (Coaching, savings, and guidance are all part of the package.)

Need help at any point? Your LucyRx Care Guide is just a call away.

Support for Specialty Needs

If you're managing a complex condition, where you fill your prescription matters. Your LucyRx Care Guide will help route it to a pharmacy that works closely with your care team—so you get the right medication, with the right support, from day one.

This team of nurses and pharmacists offer personalized support to help you:

- Understand your medications and treatment options
- Navigate prior authorizations
- Access financial assistance and coverage guidance
- Stay on track—clinically and financially

So where will you actually get your medicine?

Let's walk through how your specialty prescription is filled—and how we make it as simple and supportive as possible.

Filling a specialty prescription

When you're managing a complex condition, getting your medication from the same place you get your care just makes sense.

That's why many specialty prescriptions can be filled at local pharmacies located inside the hospital or clinic where you're being treated. These pharmacies offer:

- Faster access to your medication
- Help from a pharmacist who knows your care team
- A simpler experience with fewer steps

How LucyRx Helps You Save

We know medications can be expensive. That's why we look for ways to help you save—before you even ask.

Our Care Guides are here to help you save in ways you might not expect. If there's a better option for your medication, we'll reach out to walk you through the next step. And it's not just for specialty drugs—we help members save across all types of prescriptions, too.

Here are just a few of the ways we help members lower their costs:

We help you switch to a lower-cost version of your medication—when it makes sense
If there's a safe alternative—like a generic or another option that works the same but costs less—we'll explain your choices and help you make the switch without disrupting your care.

We help with copay discounts
You may qualify for a coupon or manufacturer program that lowers your cost. We'll handle the paperwork and get you enrolled.

We look into pharmacy options—even international
For certain medications, we may be able to help you access lower-cost pricing through trusted pharmacies outside the U.S.

We connect you to free medicine programs
If a medication is too expensive—even with insurance—we'll check if you qualify for programs that cover the full cost.

Not sure if you're paying too much? We'll check for savings—and help you make the switch if there's a better option.

We’re With You All the Way

Whether it’s your first prescription or your fiftieth, LucyRx is here to make prescription care clearer, more affordable, and built around you.

Need a hand? We’ve got you.

Whether it’s cost, access, or something unclear—
we’ll help you sort it out, every time.
